Power of 10 billion warriors (Japanese: 激10 billion warriors) 1000-e戦, Hepburn: Doragon Bōru Zetto Gekitotsu!! Hyaku-Oku Pawā no Senshi-tachi) or after Toei's own English title Dragon Ball Z: Fight! 10 Billion Power Warriors is a Japanese science fiction film from 1992, the sixth Dragon Ball Z film, originally released in Japan on March 7 at the Toei Anime fair with another Dragon Quest: Dai no Daibōken and the third magical tarurūto-kun film. A few years earlier, the tyrant Frieza destroyed Planet Namek during a battle with the newly redeliked Super Saiyan Goku. The quiet Namesays have been homeless for months. Over time, they created a new planet for them with the help of dragon balls. They lived in peace on their new planet for three years. But one day, a strange metal planet began to absorb New Namek. The silver planet, wrapped around New Name, absorbs its energy. Dende, who is now the guardian of the Earth, senses the torment of his people and calls goku for help. Goku, Gohan, Krillin, Piccolo, Oolong, Yajirobe and Lord Roshi come and run into an army of strange, big, silent robots. They soon learn, to their horror, that the master plan for the invasion is Cooler, Frieza's older brother, who Goku had killed a few years earlier and who now intends to use Namekiane as a biological fuel for his ship, the Big Getty Star. Goku fights cooler alone, while other Z-Fighters fight cooler's robot. At first, the Z-Warriors have trouble shooting off robotic armor, but Piccolo instructs them to focus their energy on one point, allowing them to destroy a few robots. But there are far too many to deal with and all the warriors, except Piccola, are trapped together by the village of Namekians. Piccolo's behind, destroying all the robots. Then fly over to rescue those who have been trapped. Elsewhere, it is clear that Goku is no match for Cooler's new metal form, which ability to regenerate. Cooler also reveals his ability to use the Instantaneous Movement technique, which Goku also uses. Goku continues to fight even after becoming Super Saiyan. Cooler reveals that the Big Gete Star constantly monitors his body and eliminates any damage it might cause, in this case cooler's severed arm goku. Before The Cooler suffocates, the vegeta, which arrived in a separate capsule, appears just in time to help Goku. Super Sayed is attacking Cooler, and they could kill him soon. However, The Big Star Gete now revisits not just one but a thousand of Cooler's physical manifestations of consciousness, which ing the balance of power decisively against the Saiyans. Renumbered and exhausted, Goku and Vegeta are captured and transported to the core of the spaceship, which is used as energy. As Cooler uses strange wires to drink his Saian power, he snidely explains his survival: not long after the defeat on Goku's hands, a nearby computer chip swam among the remnants of the spacecraft until it gained sense and absorbed everything in its vicinity and formed a spacecraft. At one point, Cooler's remains, including cuts to his brain, were confused by the main computer, allowing him to then take control, which actually means he's a Cooler Big Gete Star. Goku and Vegeta are conscious and release all their Super Saiyan energy wires, overloading the system. Then they come face to face with the core of the supercompou, the real Cooler. Cooler tries to grind Goku, but the vegeta cuts off his arm, giving Gokuju enough time to blow it up with the last energy, causing the android to finally die. In the meantime, Piccolo arrives at the fort and meets a clone of Cooler that explodes. Eventually, all the other clones of Cooler and all the other robots explode. Piccolo and the others escape before the Big Gete Star leaves new Name's orbit and explodes. Goku and Vegeta fall from the sky near the other Z-Fighters, and everyone rejoices. Vegete is nowhere to be found, but Goku still commends him for his role in defeating Cooler. Vegeta is shown in its space floor, which holds the computer chip that created the Big Gete Star. Then he broke it to ensure that he would never create more monsters like Meta-Cooler again.
